Colbert, Washington 99005

Re: Ground Water Permit No. G3-28511(B)

Dear Mr. Wiley

In response to your request, you are hereby granted an extension to put the water to full beneficial use for the reason(s) below:

According to your request, this project has not been developed due the passing of the original permittee and since portions of the land were under a CRP contract until recently. In addition, development of the project has been hindered by legal challenges to probate of the estate, in which the water right is related. It appears you have made minimal progress in completing your project. Be advised that the State Water Code requires that your project be pursued with diligence and does not allow, through the permitting process, the reservation of water for use at an unspecified time in the future. It is important that development of your project continue with development within the time prescribed in the authorization. Your request is for a reasonable and short period of time. We will grant you an additional two years to complete your project. The project will be revaluated at that time for compliance with due diligence.

The new deadline to submit your *Proof of Appropriation of Water* is November 1, 2013.

Department of Ecology personnel, upon presentation of proper credentials, shall have access at reasonable times, to the project location, and to inspect at reasonable times, records of water use, wells, diversions, measuring devices and associated distribution systems for compliance with water law.

**YOUR RIGHT TO APPEAL**

You have a right to appeal this action to the Pollution Control Hearing Board (PCHB) within 30 days of the date of receipt of this document. The appeal process is governed by Chapter 43.21B RCW and Chapter 371-08 WAC. "Date of receipt" is defined in RCW 43.21B.001(2).

Mr. Tom W. Wiley
